| Important Questions | Answers | Why This Matters: |
|---------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| What is the overall deductible ? | Participating Providers : \$10,600/person, \$21,200/family Non-Participating Providers : Not Covered | Generally, you must pay all of the costs from provider up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible . |
| Are there services covered before you meet your deductible ? | Yes. Preventive services delivered through a participating physician's office, hospital, or other provider are covered before you meet your deductible . | This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ . |
| Are there other deductibles for specific services? | No. | You don't have to meet deductibles for specific services. |
| What is the out-of-pocket limit for this plan ? | Participating Providers : \$10,600/person, \$21,200/family Non-Participating Providers : Not Covered | The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met. |
| What is not included in the out-of-pocket limit ? | Premiums ; balance-billing charges; charges in excess of the maximum benefits payable under this plan ; penalties for failure to obtain pre-authorization ; and health care this plan doesn't cover. | Even though you pay these expenses, they do not count toward the out-of-pocket limit . |
| Will you pay less if you use a network provider ? | Yes. To find a PHCS provider visit www.multiplan.com or call 1-800-922-4362 or to find a PNOA provider visit www.pnoa.com or call 1-833-257-8179 for a list of network providers . | This plan uses a provider network . You will pay less if you use a provider in the plan's network . This plan provides limited coverage if out-of-network providers are used (only emergent services are covered out-of-network). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services. |
| Do you need a referral to see a specialist ? | No. | You can see the specialist you choose without a referral . |

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
